 - University of Utah, Graduated: December 2022

Projects

- **Portfolio Website** (sean-k-madigan.github.io/Portfolio.Madigan/)
 - Designed and developed a personal portfolio website to showcase my skills and abilities.
 - Technologies: HTML, CSS, JavaScript

➤ **Personal Blog Application**

- Built a personal blog application that allows the user to create posts, theme selection, and a multipage UI.
- Technologies: Javascript, Local Storage

➤ **Note Taker**

- Developed a back-end to enhance functionality of a note taker program allowing the user to create, save, and delete notes.
- Technologies: Express.js

➤ **National Park Explorer**

- Demonstrates a group project I participated in employing API fetches and dynamically populating data into HTML.
- Technologies: Javascript, API fetches

➤ **README.md Generator**

- Developed a README.md file generator that allows the user to generate professional readme files directly from their command line.
- Technologies: Node.js

Please see all associated project repositories and more on the [gitHub link](#) provided above.

Community Engagement

Scubility with LifeWaters: I am certified DiveMaster through TDI which has allowed me the opportunity to facilitate the joys of scuba diving for veterans, first responders, and civilians with disabilities.

I look forward to elaborating on how my unique skills and experience will benefit your company!
